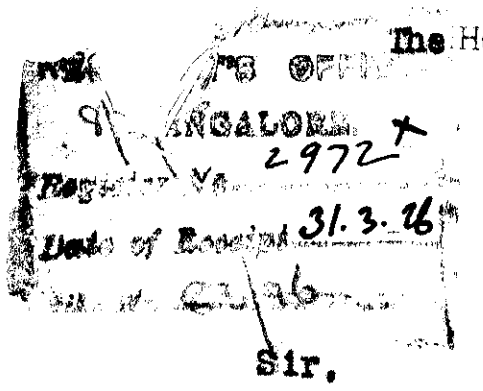
No.D.544-1.

From

The Deputy Secretary to the Government of India
in the Foreign and Political Department,

To

The Hon'ble the Resident in Mysore.



Dated Delhi, the 27 March 1926.

Survey of educational expenditure.

Sir,

I am directed to forward for your information a copy of a letter from the Government of India in the Department of Education, Health and Lands No.421-E dated the 22nd February 1926 (with enclosures), and to say that the Government of India are prepared to extend to the smaller areas under their direct administration the benefits of the more generous policy which it is now proposed to inaugurate. The Government of India will accordingly be glad to receive a programme for the expansion of education in the Civil and Military Station Bangalore.

2. I am also to request that in support of such proposals as may be submitted statements should be attached to show (a) the population, male and female, for whom educational facilities should be provided by the Government of India, (b) the existing facilities together with the percentage of the population attending school, (c) the expenditure on education in 1920 compared with that in 1925 and (d) from what other sources, existing or potential funds could be provided for educational purposes.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Secretary to the Government of India.

From

The Secretary to the Government of India

in the Department of Education, Health and Lands,

To

The Chief Secretary to the Government of Bombay, Political Department.

The Chief Commissioner, Delhi.

The Honorable the Agent to the Governor General and Chief Commissioner in Baluchistan.

The Honorable the Chief Commissioner, Ajmer-Merwara.

The Honorable the Chief Commissioner and Agent to the Governor General in the North West Frontier Province.

Dated Delhi, the 22nd February 1926.

Survey of educational expenditure.

Sir,

I am directed to say that owing to the financial stringency, which prevailed during recent years, the Government of India regret that they were not in a position to encourage the expansion of education in territories directly administered by them. The financial outlook, however, has now improved, and the Government of India are anxious to undertake a general survey of the educational activities of Government in those territories ~~in~~ with a view to the co-ordination and co-relation of educational expenditure, and the adoption of measures for the expansion of education. They accordingly desire to enlist your co-operation in the matter, and to have a programme of desirable new educational expenditure framed so far as that expenditure falls on the Central Government. As it is not always possible to forecast in what directions progress can best be made with the advance of time, it is considered desirable that a programme should be drawn up at present extending over a period of not more than five years. Although the programme should be as full as possible, the Government of India cannot

cannot guarantee to accept the whole of it or to finance it forthwith. They are prepared, however, to consider it carefully along with the programmes received from other administered territories, and to allot funds as and when money becomes available.

2. The Government of India will accordingly be glad to receive ~~accordingly~~ a complete programme for the expansion of education in

~~Aden~~
~~Delhi~~
~~Baluchistan~~
~~Ajmer-Merwara~~
~~N.W.F.Province~~

extending over a period of five years from the financial year 1927-28, together with Tables A to G appended to this letter duly filled up as indicated therein. If you have in view any programme of educational expansion in addition to those outlined in Table A to G, I am to request that it may also be submitted to the Government of India for consideration.

3. As it is proposed to undertake the general survey of educational activities as early as possible, your reply together with the programme and the tables may be sent to this Department by the 1st June 1926, at the latest.

I have the honour to be,

Sir,

Your most obedient servant,

Sd. J. W. Shore,

Secretary to the Govt. of India.

Enclosures.....

.....

.....

Spare Copies.....

Sir,

S.V. With reference to your No. 3280/83-1926, dated 12-4-1926, calling for proposals for the expansion of education in the C. & M. Station, Bangalore, I have the honour to enclose herewith statements showing the statistics required by the Government of India and the programme for the expansion of education for the 5 years commencing from 1927-28. I am not certain whether the European Schools should be included in the proposals or not. I have therefore shown them separately wherever necessary.

2. Our first consideration must be the improvement of elementary education in the Station. In the year 1920, the Municipal Commission made a survey of educational expenditure and discussed the desirability of introducing compulsory education in this area. A scheme setting forth a programme of educational activities for 5 years beginning from 1921-22 was prepared and detailed proposals were sent to the President. The scheme as put forth contained the following proposals:-

1) The development of the Municipal Schools at Blackpalli, Cockburn Road (Hafizia School) and Ookadpoli into Higher Elementary Schools, with a view to relieving the congestion in the Lower Secondary Departments of Secondary Schools and divert the poorer classes of students, who are in need of Higher Elementary education, from the Secondary to the Higher Elementary Schools.

2) The conversion of [redacted] S. Sabha Secondary S[redacted]

into a Municipal Secondary School.

3) Opening of Municipal Schools in places where neither the Municipal Commission nor private agencies were engaged in education work.

4) Opening of new Municipal Schools in places where inefficient aided or unaided schools were at work, so that the latter might be absorbed into the former.

5) Opening of night schools or night classes for labourers in some Municipal School buildings.

3. A few changes have taken place in the educational condition of the station since the above proposals were made. The C. V. S. Sabha Secondary School is now working under better conditions and does not therefore stand in need of a change in management. I therefore confine myself to the other proposals which may be carried on during the next five years.

1) The development of the 3 elementary schools, Blackpalli, Cockburn Road (Hafizia School) and Ookadpoliem into Higher Elementary Schools.

2) Opening of new Municipal Elementary Schools.

I propose the following schools:-

For Boys.	For Girls.
Municipal Muhn. Boys' School, Fraser Town.	1. Munl. Girls' School, Blackpalli for Hindus.
Munl. Hindu School, Jewellers' Street.	2. Munl. Girls' School, Puduparacherr for Panchamas.
-do- Boys' School, Shoolay.	3. Munl. Muhn. Girls' School, Arab Lines.
- do - Thimmiah Road or Seppings Road (for Panchamas).	4. Munl. Hindu Girls' School, Jougupoliem.
Munl. Muhn. School, Old Poor House Road.	5. Munl. Girls' School, Broadway (either for Hindus or Muhammadans.
Munl. Panchama School, Tannery Road.	6. Munl. Panchama School, Ookadpoliem.

Some of the above schools will absorb the ill-conducted aided schools in the locality.

The night schools proposed are the following:-
1) Blackpalli, (2) Old Poor House Road, (3) Pioneercherri, 4) Knoxpet and (5) Hafizia School.

All the communities have been given due representation in the above programme.

4. In addition to the above proposals for opening Municipal

Schools, I think the condition of the aided elementary schools may be improved by (1) increasing the teaching grant, (2) by giving grants towards the institution of Provident Funds for teachers and (3) by giving building grants to schools which have at present very poor buildings.

5. Under European Primary Schools, I have proposed allotments for building and equipment grants only. The Correspondent of St. Joseph's Convent Primary Free School has applied for a grant of Rs.18,000 for extension of the building and, if funds permit, this may be given during 1927-28. I have provided Rs.5,000 for each of the years 1928-29 to 1931-32 to enable the schools to undertake necessary extensions, etc.

6(a) The question of the improvement of the Government Training School, Bangalore, is intimately connected with that of the improvement of elementary education. The school has elementary and secondary classes but its staff is inadequate for a secondary school. It is housed in a rented building which cannot be said to be quite satisfactory. Therefore, if funds permit, a building may be constructed for it at a cost of about Rs.20,000 in a central part of the town. The acquisition of land may cost about Rs.2,000, in addition to the above. The school will require a model section up to the 3rd form, but this can perhaps be dispensed with if it is located close to one of the Hi Schools.

(b) As I said above, the staff is inadequate for a secondary training school. There is only one B. A., L. T. - the Head Master and 2 trained teachers of the Secondary Grade, together with a Kanar Pandit. Under rule 108 of the Madras Educational Rules, there shou be three trained graduates on the staff. The school being a small one, I do not think this number is needed yet, but it is quite necessar have one more trained graduate on the staff to do justice to the Se ary Grade subjects. I therefore strongly recommend the appointment an additional graduate teacher on Rs.100-5-150-10-250 with effect fr 1927-28.

A temporary Music Teacher is attached to the school on a salary of Rs.30 per mensem. I recommend that the post be made permanent.

SECONDARY EDUCATION.

7. I have not proposed any large grants for Secondary Schools. Under maintenance grants an increase of Rs.1,000 annually has been proposed to enable certain schools to open higher standards, e. g., Clarence School. Under grants for Provident Funds to teachers, I have allotted Rs.10,000. The schools are in need of Provident Funds badly. Under building grants, annual allotments of Rs.5,000 have been made to supplement the grants now given.

INSPECTION.

8. I have proposed the addition of a Lady Superintendent of Girls' Schools to the Inspecting Staff. Formerly there were two Sub-Assistant Inspectors of Schools in the Station, one in charge of Muhammadan Schools and the other of non-Muhammadan Schools. Since the abolition of the former post, all the elementary schools are under the direct supervision of the latter. The services of a Muhammadan Sub-Assistant Inspector are borrowed every year from Madras for the annual inspection of Muhammadan Boys' Schools and of a lady teacher for the inspection of Muhammadan Girls' Schools. It is not possible for the Sub-Assistant Inspector to supervise the instruction, etc., in Muhammadan Girls' Schools since they are gosha institutions. The appointment of a Lady Superintendent will enable the department to keep a constant watch on the Muhammadan Girls' Schools and also give the Sub-Assistant Inspector necessary assistance in the supervision of the other Girls' Schools. She may be placed under the Municipal Commission, which may be given a grant towards her salary, due arrangements being made for her to visit non-Municipal Girls' Schools when necessary.

I have the honour to be,

Sir,

Your most obedient servant,

H. J. Saunders.

Inspector of Schools,

and Bangalore.

" Omitting expenditure of a purely political nature.

* Omitting Government grants for education, health, etc.

On what system are Government contributions made to (a) District Boards and (b) Municipalities? The Government are bearing the entire cost of girls' education and are giving grants towards capital expenditure, i.e., building and equipment of the Municipal Boys' Schools. They are also bearing half the cost of Municipal Drill Instructors. Only the cost of maintenance of Municipal Boys' Schools is met from Municipal Funds.

From

The Hon'ble Mr. S. E. Peurs, C.S.I., C.I.E.,
Resident in Mysore.

To

The Political Secretary to the Government of India,
Foreign and Political Department.

Dated Bangalore, 1st June 1926.

SURVEY OF EDUCATIONAL EXPENDITURE.

Sir,

I have the honour to refer to your letter No.D-544-I, dated the 27th March 1926, and to forward statements, A, B, C, D, E, F, G and H containing information in regard to the Civil & Military Station of Bangalore.

2. The proposals embodied in the statements are summarised below -

	Total cost for five years. (1927-32). Non-recurring. Rs.	Recurring. Rs.
(1) The development of the 3 Elementary Schools at Blackpalli, Cookburn Road, & Ookadpoliem into Higher Elementary Schools.	6,000	6,000
(2) Opening of new Municipal Elementary Schools - 6 for boys and 6 for girls.	1,14,000	28,000 "
(3) Opening of 5 night schools.	...	750 "

(4) Additional grants to aided schools.

		Building grants. Rs.	Equipment grants. Rs.	Maintenance grants. Rs.
High Schools & Middle Schools.	European	15,000	10,000	55,000
	Indian.	10,000	5,000	
Primary Schools.	European	38,000	5,000	24,000
	Indian.	50,000	3,000	
		1,36,000		79,000

(5)

	Non-recurring. Rs.	Recurring. Rs.
(5) Improvement of the Government Training School.	22,000	8,400
(6) Inspection.		
Appointment of a lady Superintendent of Girls' Schools.	..	8,100
Total cost of the 5 years' programme.	2,78,000	1,30,250
Average per year.	55,600	26,050

3. In regard to paragraph 2(d) of your letter: from the statement of receipts of the Civil & Military Station of Bangalore given below it is seen that the total receipts are gradually falling -

Receipts.	Actuals. 1923-24. Rs.	Actuals 1924-25. Rs.	Revised estimate 1925-26. Rs.	Budget estimate 1926-27. Rs.
Total. (including one-third of income-tax receipts of the Mysore Residency)	18,98,510	18,89,368	17,19,140	17,11,000
Taxes on income.	1,89,866	2,23,548	1,91,922	1,83,000
E x c i s e.	14,77,891	14,47,738	12,95,841	13,05,470
S t a m p s.	1,61,465	1,56,003	1,84,367	1,62,500
The total expenditure excluding expenditure debitable to the accumulated surplus of previous years for the same years is:-	13,73,104	13,07,274	12,58,630	13,10,000

Of the principal sources of income, 'Excise' and 'Taxes on Income' are declining. It is probable that the estimated amount for 1926-27 will not be fully realised. The Collector, Civil and Military Station, Bangalore, has already reported that in the recent sale of arrack & toddy shops there was a fall of about 84,000 in the revenue.

The percentage of expenditure on Education to the total expenditure is already high and an increase in expenditure under this head can only be made at the expense of other pressing needs of the Station.

For

For this reason and also from the fact that Assigned Tract revenues are steadily decreasing, I am of the opinion that it is not possible to make further provision for Educatio from these revenues.

The financial position of the Municipal Commission will not permit of further expenditure on Education being incurred.

I have the honour to be,

Sir,

Your most obedient servant,

o/c

for R E S I D E N T.

No. 204-I. *Dated the* 10th August *1926.*

S.G

Your letter 4806/83-1926 June 1st. Survey of educational expenditure. Please furnish information urgently on the following points.

Item No.I. The raising of three elementary schools between 1927-28 and 1929-30, to the Middle standard at a cost of Rs.2,000 each non-recurring and Rs.2,000 recurring. Please explain how this estimate is reached.

Item No.II. The opening of twelve new Municipal elementary schools, six each for boys and girls, at a total cost of Rs.1,24,000 non-recurring and Rs.28,000 recurring. The statement appended to your letter says that the average cost of opening a school is Rs.2,500 recurring and Rs.10,000 non-recurring. The General educational tables for 1924-25 show that the average cost of a municipal school for boys and girls is a little over Rs.2,00(

S. e

but

but these schools will surely not be so large. Moreover it is unlikely that buildings would be needed for all the twelve new schools during the next five years. Please furnish more detailed estimates.

Item IV. Additional grants to aided schools, Rs.1,36,000 non-recurring and Rs.79,000 recurring. Please furnish details in support of these proposals.

Item VI. The appointment of a Lady Superintendent for Girls schools at Rs.8,100 recurring. The Government of India are doubtful whether the Lady Superintendent would find her time fully occupied. It is suggested that she may be attached as headmistress to one of the local institutions. Please state whether you agree.

Spare Copies.....

Sir,

With reference to your No. 7024/83-26, dated th. 16th instant, in connection with the extention of the ele mentary education in the Station, I have the honour to of the following remarks. I also enclose statements A to D containing the details called for in the express letter fr the Government of India to the Hon'ble the Resident in Mysore. The whole may be considered in the light of the fact that the total number of children of school-age in t Municipality is about 15,200, whereas the number at pre- sent in elementary schools is only 7,078 with about 1,046 in the primary classes of Indian Secondary Schools.

Item No. 1. The raising of the 3 elementary schools to middle standard.

An explanatory statement is attached herewith enclosure A. It gives in detail the proposed scale of salaries to the staff for each school, when it is raise the higher grade. It will be seen that the average in- crease in the recurring expenditure will be about Rs.2,00 for each school. The non-recurring expenditure of Rs.2, is the provision made for extending the present buildin by the erection of two extra rooms to each.

The present proposal is to open the three extr standards at once, which can quite easily be done in vie of the localities chosen, and the overcrowded condition of the Lower Secondary departments of the High and Middle Schools.

Item No. II. The opening of 12 new Municipal Schools.

The statements B and C show the names of schools proposed to be opened, together with the provision made for the staff and for building and equipment. It will be seen from each statement that the average cost for each school is Rs.2,500/- recurring, and Rs.10,000/- non-recurring. This denotes the <u>average cost</u> for each school. There will be some large schools in thickly populated localities and some small schools in newly laid extensions of the town. The cost of erecting a building for a large school will be about Rs.12,000/- and that for a small school will be about Rs.8,000/-, and therefore the average non-recurring cost of a building is about Rs.10,000/-. The exact cost can be estimated only at the time of the construction of the building. In the case of recurring expenditure, the following is the general scale of staff for each kind of school:-

<u>For a large school</u>:

Head teacher	40-1-45
1 assistant	35-1-40
1 assistant	30-1-35
2 assistants	25-1-30 each

One Manual Training Instructor for boys' schools on Rs.30-1-35 or in the case of girls' schools one singing master on Rs.25-1-30. In the case of Gosha girls' schools one cart on Rs.30/- for each 50 pupils in attendance and one conductress on Rs.8/- per mensem per cart. In the case of the the non-Muhammadan girls' schools, one conductress to collect all the girls; one peon on Rs.13/- per mensem for a small school or a gosha girls' school, and on Rs.15/- for a large school.

For a small school, one head teacher on Rs.35-1-40, one assistant on Rs.30-1-35 and another on Rs.25-1-30.

When the average expenditure is calculated on the above basis, it amounts to Rs.2,500/- per annum per school. The schools proposed are mostly in thickly populated areas and so will out-grow the staff in two or three years after they are started. It is necessary that these schools should be accommodated in separate buildings of their own.

<u>Item IV. Additional grants to aided schools.</u>

Statement D gives the details of the additional non-recurring and recurring grants for aided schools. I trust that

the explanation given against each item is sufficiently clear. It is not possible to give the details against each school at this stage. Since the number of trained teachers in aided schools is increasing annually (and since we are not training lower elementary grade teachers now, we shall have trained secondary and elementary higher grade teachers in aided schools in the course of two or three years.) This means an increase of grant. An additional provision of Rs.3,000/- has therefore been made for the first two years; for the next two years an additional increase of Rs.3,000/- will be necessary and the last year of the programme an extra Rs.3,000/- will be required.

Item VI. Appointment of a lady superintendent.

There is no objection to the appointment of the Head Mistress of one of the Municipal Schools as the Supervisor of the Gosha girls' schools in the Station, except that the work will take her away from her own school a good deal. The scale of pay may be fixed at Rs.45-3-75 with a conveyance allowance of Rs.15,- per mensem so that a trained Secondary Grade teacher may be appointed. She will assist the Sub-Assistant Inspector in the inspection of the Muhamma girls' schools - Municipal as well as aided,- and the non-Muhammadan Girls' schools, if required.

I have the honour to be,

Sir,

Your most obedient servant,

H D Saunders

Inspector of Schools,

Coorg and Bangalore.

Urgent

All communications should be addr ed to the Secretary to the Resident in Mysore, Bangalore, by designation and not by name.

FROM

Major K. A. G. Evans Gordon,

SECRETARY TO THE RESIDENT IN MYSORE.

To

The Inspector of Schools,

Coorg and Bangalore.

Dated Bangalore, 31st August *192*6.

Subject.
Survey of educational expenditure.

SIR,

I am directed to acknowledge the receipt of your letter No.2036/1-26, dated the 27th August 1926, together with the four statements, and to request that information on the following points may be supplied to this office as early as possible:-

8.7

Statement A.

Column 7. How Rs.5,200/- against Municipal Hafizia school has been arrived at may be stated. As the statements are to be submitted to the Government of India the calculation of cost for this school should, if possible, be in uniformity with the other two schools.

Columns 4 & 5. Present total cost of Municipal School, Cokadpoliem seems to be Rs.2,726/- instead of Rs.2,546/-.

Statement D.

Whether entry (7) in column 10 refers to equipment grants and, if so, it may be noted accordingly.

Entry (8) refers to 20,000 while explanation is required for only 11,000.

2. The statements are returned for necessary

correction

correction and retransmission at a very early date.

I have the honour to be,

Sir,

Your most obedient servant,

O/c 1409/31.8.26

Major.

SECRETARY TO THE RESIDENT.

From (Name) H. F. Saunders, Esq., M. A.,
(Designation) Inspector of Schools,
(Address) Coorg and Bangalore.

To The Secretary to
the Hon'ble the Resident in Mysore,
Bangalore.

Sir,

With reference to your No. 7533/83-1926, dated 31-8-1926, I have the honour to enclose herewith a fresh statement A giving the necessary details. The statements B, C and D are also enclosed.

2. The entry (7) in Statement D refers to Equipment grants. The figure Rs.10,000/- appearing a second time in Col. 10 against entry (8) is a clerical error for Rs.1,000/- and the correct figure has been given now. I regret the mistake.

I have the honour to be,
Sir,
Your most obedient servant,

H. F. Saunders

Inspector of Schools,
Coorg and Bangalore.

EXPRESS LETTER

[*N.B.—This is an ORIGINAL MESSAGE, sent by post to save telegraphic expense and undue use of the wires, but intended to be treated, on receipt, with the same expedition as if it had been telegraphed. To save time and formalities it is worded and signed as if it had been so despatched.*]

FROM

Resident Mysore

Bangalore

To

Polindia

Simla

No. 7632 S—4 Dated 3rd September 1926

K.5

\ Your Express letter No.204-I, dated the 10th August 1926, regarding survey of educational expenditure.

2. I enclose four statements (A to D) containing the details asked for. The whole question may be considered in the light of the fact that the total number of children of school-ag in the Civil and Military Station of Bangalore is about 15,200 whereas the number at present in elementary schools is only 7078 with about 1046 in the primary classes of Indian Secondary Sch[illegible].

Item No.1. The raising of three elementary schools between 1927-28 and 1929-30 to the Middle standard at a cost of Rs.2,000/- each non-recurring and Rs.2,000/- recurring.

3. The enclosed statement A gives in detail the proposed scale of staff and salaries for each school when it is raised. It will be seen that the average increase in the recurring [illegible]

S. o

expenditure will be about Rs.2,000/- for each school. The non-recurring expenditure of Rs.2,000/- is the provision made for extending the present buildings by the erection of two extra rooms to each.

The present proposal is to open the three extra standards at once which can quite easily be done in view of the localities chosen and the overcrowded condition of the Lower Secondary departments of the High and Middle Schools.

Item No. II. The opening of twelve new Municipal elementary schools, six each for boys and girls, at a total cost of - Rs.1,24,000/- non-recurring and Rs.22,000/- recurring.

4. The statements B and C show the names of schools proposed to be opened, together with the provision made for the staff and for building and equipment. It will be seen from each statement that the average cost for each school is Rs.2,500/- recurring, and Rs.10,000/- non-recurring. This denotes the average cost for each school. There will be some large schools in thickly populated localities and some small schools in newly laid extensions of the town. The cost of erecting a building for a large school will be about Rs.12,000/- and that for a small school will be about Rs.8,000/-, and therefore the average non-recurring cost of a building is about Rs.10,000/-. The exact cost can be estimated only at the time of the construction of the building. In the case of recurring expenditure, the following is the general scale of staff for each kind of school:-

For a large school:

Head teacher	..	40-1-45
1 Assistant,	..	35-1-40
1 Assistant	..	30-1-35
2 Assistants	..	25-1-30 each.

One Manual Training Instructor for boys' schools on Rs.30-1-35 or in the case of girls' schools one singing master on Rs.25-1-30. In the case of Gosha girls' schools one cart on Rs.30/- for each 50 pupils in attendance and one conductress on Rs.8/- per mensem per cart. In the case of the non-Muhammadan girls' schools, one conductress to [redacted] collect all the girls; one peon on Rs.13/- per mensem for a [redacted] school or a gosha girls' school, and on Rs.15/- for a large sch[redacted]

For a small school, one head teacher on Rs.35-1-40, one assistant on Rs.30-1-35 and another on Rs.25-1-30.

When the average expenditure is calculated on the above basis, it amounts to Rs.2,500/- per annum per school. The schools proposed are mostly in thickly populated areas and so will out-grow the staff in two or three years after they are started. It is necessary that these schools should be accommodated in separate buildings of their own.

Item IV. Additional grants to aided schools, Rs.1,36,000/- non-recurring and Rs.79,000/- recurring.

Statement D gives the details of the additional non-recurring and recurring grants proposed for aided schools. I trust that the explanation given against each item is sufficiently clear. It is not possible to give the details against each school at this stage. Since the number of trained teachers in aided schools is increasing annually, increased grants have to be paid to them. A provision of Rs.3,000/- has therefore been made for the first two years; for the next two years an additional increase of Rs.2,000/- will be necessary and the last year of the programme a further sum of Rs.3,000/- will be requir

Item VI. The appointment of a Lady Superintendent for Girls' Schools.

There is no objection to the appointment of the Head Mistr of one of the Municipal Schools as the Supervisor of the Goshe Girls Schools in the Station, except that the work will take her away from her own school a good deal. The scale of pay may be fixed at - Rs.45-3-75 with a conveyance allowance of Rs.15/- per mensem, so that a trained Secondary Grade teacher may be appointed. She will assist the Sub-Assistant Inspector in the inspection of the Muhammadan Girls' Schools - Municipal as well as aided, - and the non-Muhammadan Girls' Schools, if required.

Expansion of Education in the Civil and Military Station, Bangalore.

Sir,

With reference to your express letter No.7632 dated the 3rd September 1926, I am directed to communicate the following orders of the Government of India on the programme submitted by you for the expansion of education in the Civil and Military Station, Bangalore, during the next five years (1927-28 to 1931-32).

a) Item 1. The raising of three primary schools to the middle standard at a capital cost of Rs.2,300 in each case and a total recurring cost of Rs.4,224 in 1931-32.

The Government of India have accepted the necessity for this item. One primary school may be raised to the middle standard during each of the years 1927-28, 1928-29 and 1929-30.

b) Item 2. Opening of twelve new elementary Schools, six each for boys and girls, at a total non-recurring cost of Rs.1,37,900 and a recurring cost of Rs.29,700 in the fifth year.

The Government of India have accepted the need for the opening of these new elementary schools, but they do not consider it desirable to erect new buildings for all these schools as soon as they are opened in case some prove unsuccessful in the course of the next few years. They are, therefore, of opinion that it will be sufficient, for the present, to construct only six buildings during the quinquennium at a cost of Rs.10,000 each. For the purchase of

of equipment a sum of Rs.300 for each of the 12 schools may be provided. The Government of India are also inclined to the view that it is unnecessary to provide Rs.2,500 on an average for the maintenance charges of each school. They consider that it will be sufficient to provide a sum of Rs.2,000 a year on an average to meet the recurring cost of each school.

c) The total capital expenditure has accordingly been reduced to Rs.63,600 i.e. Rs.10,000 for each of the six buildings to be constructed and Rs.300 for equipment for each of the twelve schools to be opened. The recurring cost will be Rs.24,000 in the fifth year.

Item 3. Opening of five night schools for adults at a cost of Rs.150 a year each.

d) This proposal has also been accepted. The recurring expenditure will rise from Rs.150 in 1927-28 to Rs.750 in 1931-32.

Item 4. Additional grants to aided schools amounting to Rs.1,13,000 for buildings, Rs.23,000 for equipment and from Rs.14,000 to Rs.19,000 for recurring grants.

e) The Government of India regret that they are unable to agree that there is sufficient justification for the large additional provision for grants both recurring and non-recurring proposed by you. They are prepared to make only (i) an additional provision during each year of the quinquennium for non-recurring grants of Rs.5,000 for building and equipment, and (ii) an additional provision for maintenance grants (recurring) of Rs.5,000 in 1927-28 rising by Rs.1,000 per year to Rs.9,000 in 1931-32.

f) Item 5. Extension of the Government Training School building at a cost of Rs.22,000 and appointment of three additional (x two) teachers at a recurring cost of Rs.1,800 in 1931-32.

Vide SN 4/H Supra. The Government of India have accepted this item. But the cost of the building should be provided equally in the first two years of the quinquennium, i.e. Rs.11,000 in 1927-28 and a similar amount in 1928-29.

Item

Item 6. Appointment of a Lady Superintendent of girls schools on Rs.45-3-75 a month and grant to her of a conveyance allowance of Rs.15 per mensem.

9) This proposal has been accepted without modification.

2. The additional expenditure involved from central funds in the various items as modified by the Government of India in the preceding paragraph is as follows:-

No.of item.	Non-recurring (Amounts shown are non-progressive.					Recurring (Amounts shown are progressive).				
	1927-28.	1928-29.	1929-30.	1930-31.	1931-32.	1927-28.	1928-29.	29-30.	30-31.	3132

3. Owing to the shortness of time a lump sum of Rs.39,262 is being provided in the estimates of the Central Government for 1927-28 under the head "Political-Bangalore-Account 11-Education-Lump provision for additional expenditure involved in five year programme-(Non-Voted)". It will, however, be necessary during the course of the financial year 1927-28 to transfer this amount to the various sub and detailed heads under which this expenditure will be incurred. I am accordingly to request that the Government of India may be furnished in due course with a statement showing the division amongst the sub and detailed heads of this lump provision of Rs.39,262. For 1928-29 and future years the expenditure involved

involved in this five year programme as indicated in the preceding paragraph should be provided through the budget estimates under the appropriate sub and detailed heads.

4. It is to be clearly understood that the above orders are not intended to do away with the necessity of the sanction of competent authority being accorded to any scheme on which it is intended to utilise the funds referred to in paragraph 2 above. Should therefore any scheme require the specific sanction of the Government of India under any of the rules in force, such sanction should be obtained before the scheme is given effect to.

5. I am also to request that the preliminary action necessary to give effect to the schemes may be taken as soon as possible after the necessary funds have been provided.

I have the honour to be,

Sir,

Your most obedient servant,

H R Lynch Blosse

Deputy Secretary to the Government of India.

13

Office of the Inspector of Schools,
Coorg and Bangalore,
Bangalore, Dated 14th May 1927.

From
J. A. Y a t e s, Esq., M. A.,
Inspector of Schools.

To
T h e S e c r e t a r y t o
the Hon'ble the Resident in Mysore,
B a n g a l o r e.

4228
16/5/27

Sir,

With reference to the letter No. 203-I/26, dated 4-3-1927, from the Deputy Secretary to the Govt. of India (Foreign and Political Department) re the expansion of education in the C. & M. Station, Bangalore, I have the honour to submit the following proposals:

Item I: Raising of 3 Primary Schools to Middle Standard at a capital cost of Rs.2,300/- in each case and a total recurring cost of Rs.4,224/- in 1931-32.

The non-recurring cost of Rs.2,300/- is proposed to be utilised to construct two additional rooms in the Municipal Hafizia School building in Cockburn Road, this being one of the schools to be raised to the Middl Grade. I propose that this amount be given to the Municipal Commission as a special grant for this purpose.

A recurring sum of Rs.1,232/- has been allotted for 1927-28. I find that Mr. Saunders suggested that all the 3 schools should be develop simultaneously by opening standards 6, 7 and 8 in the 3 years commencing with 1927-28. The Government of India have in this order stated that or Primary School may be raised to the Middle Standard during each of these 3 years, but the cost of raising one Primary School to a fully equipped Higher Elementary School was estimated at about Rs.2,000/-, in which case the grants allotted during the current and successive years will be found inadequate to meet the recurring cost. So I propose the opening of standard 6 in each of the Municipal Schools at Blackpalli, Cokadpoliem and Cockburn Road and appoint a Secondary Grade teacher on Rs.40/- to begin with in the grade of Rs.40-1½-70, with effect from 1-7-1927. The extra cost involved is Rs.1,080/- for 9 months. The balance of Rs.152/- will be spent in equipping the schools with books, maps and appliances required for a Vernacular Middle School. I request that sanction be accorded fo incurring this expenditure, and that the money be paid to the Municip[illegible] Commission.

Item 2: Opening of 12 new elementary schools, six each for boys and girls, at a total non-recurring cost of Rs.10,000/- each for six buildings and equipment at Rs.300/- each for 12 schools and recurring cost of Rs.2,000/- for each school.

According to statements B and C submitted by me, the Municipal Girls' School, Puduparacheri is the only institution to be opened in 1927-28. The scale of staff is as follows:-

	Grade.	Intial pay.
Headmistress	35-1-40	35
I Assistant	30-1-35	30
II Assistant	25-1-30	25
III Assistant	25-1-30	25
Singing Master	25-1-30	25
Peon	13	13
Conductress	8	8
Fixed contingencies	5	5
Total per mensem		166
Expenditure for 9 months if the school be opened on 1-6-1927.		1,494
Lump estimate for furniture		300
Lump estimate for books, maps & other appliances		200
		1,994

The building is ready and we can immediately proceed to open the classes, i.e., with effect from 1-6-1927.

Owing to the construction already of the building for the Puduparacheri School, the non-recurring grant of Rs.10,300/- for construction and equipment of Municipal Schools during the current year is available for expenditure. I propose that this be utilised for the purchase of sites (if necessary) and the construction of buildings programmed for 1928-29 for (1) Fraser Town Muhammadan Girls' School and (2) Municipal Girls' School, Blackpalli. If small buildings are constructed of the type of the Fraser Town Girls' School, I think we shall not require more than Rs.5,000/- each. I suggest that the amount may be transferred to the Municipal Commission, with whom I shall open correspondence in regard to the sites and plans.

Item 3: Opening of 5 night schools at a cost of Rs.150/- a year each.

I propose that a night school be opened in the Municipal School, Old Poor House Road with effect from 1-6-1927. The Head Master of the Day School may be appointed on an allowance of Rs.8/- p. m., the peon an allowance of Re.1/- p. m and the balance Rs.3-8-0

spent on lighting charges and other contingencies. There will be a saving of Rs.37-8-0 during the current year by opening the school on 1-6-1927, which may be utilised for the purchase of books and appliances

Item 6: Appointment of a Lady Superintendent of Girls' Schools on Rs.45-3-75 p. m. and grant to her of a conveyance allowance of Rs.15/- p. m.

A Secondary Grade teacher knowing Hindustani is required. I propose that the post be sanctioned with effect from 1-7-1927 on the minimum salary of Rs.45/- p. m. during the current year + Rs.15/- p. m. conveyance allowance and the sanctioned allotment of Rs.720/- be transferred to the Municipal Commission. The savings of Rs.180/- during the current year will be utilised on non-recurring expenditure, such as purchase of books, &c.,

I solicit the Hon'ble the Resident's orders on the above at a very early date.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector of Schools,

Coorg and Bangalore.

Proceedings of the Hon'ble the Resident in Mysore.

—:0:—

No. 4586

Dated Bangalore 28th May 1927.

Read :-

Letter No.803-I/26, dated the 4th March 1927, from the Government of India in the Foreign and Political Department.

Letter No.1210/56-24, dated the 14th May 1927 from the Inspector of Schools, Coorg and Bangalore.

ORDER.

Under rule 56 of the Grant-in-Aid Code for Indian Schools in the Civil and Military Station, Bangalore, the Hon'ble the Resident is pleased to sanction the payment of a grant of Rs.16,702/- (Rupees sixteen thousand seven hundred and two only) to the President, Municipal Commission, Civil & Military Station Bangalore for the following purposes:-

	Non-recurring. Rs.	Recurring. Rs.
(1) The raising of three Municipal primary schools to t the middle standard.	2,300	1,252
(2) Opening of twelve new Municipal elementary schools.	10,300	2,000
(3) Opening of five Municipal night schools for adults.	..	180
(4) Appointment of a Lady Superintendent of Girls' Schools on Rs.45-5-75 per mensem and grant to her of a conveyance allowance of Rs.15/-	..	720
	12,600	4,102
Total recurring and non-recurring.	16,702	

2. The charge should be met from the allotment in the current year's budget of the Bangalore Assigned Trust under the head "Account II-Education - C.Primary - 5.S-Grants-in-Aid to Non-Government Primary Schools - Grants-in-Aid to local bodies for primary education" to which head the necessary re-appropriation will be made.

3. The Pay and Accounts Officer is requested to place the above amount at the disposal of the President, Municipal

Commission,

Commission, Civil and Military Station, Bangalore.

Major.
SECRETARY TO THE RESIDENT.

The Inspector of Schools, Coorg and Bangalore.

	1920-21	1924-25.	1920-21	1924-25	1920-21	1924-25
Government						
District Board						
Municipal Funds	6,06,710	6,08,668	24,588	31,294	4%	5.1%
Other funds						

T.P.
21.5.1926.

(4) Please see sls. 1 & 2 and p.u.c. and from para (1) of these notes.

The Inspector's proposals for the expansion of education in the station may be analysed as under:-

		Total cost for 5 years (1927-32) Non-recurring.	Recurring.
(1)	The development of the 3 elementary schools at Blackpalli, Cockburn Road, and Ookadpoliem into Higher Elementary Schools.	6,000	6,000
(2)	Opening of new Municipal Elementary schools - 6 for boys and 6 for girls.	1,14,000	28,000
(3)	Opening of 5 night schools.	-	750
(4)	Additional grants to aided schools:-		

		Building grants	Equipment grants	Maintenance grants.
High Schools	European	15,000	10,000	-
Middle schools	Indian	10,000	5,000	55,000
Primary schools	European	38,000	5,000	-
	Indian	50,000	3,000	24,000
		136,000		79,000

(5)	Improvement of the Govt. Training school.	22,000	8,400
(6)	Inspection		
	Appointment of a Lady Superintendent of Girls' schools.		8,100
	Total cost of the 5 years' programme.	2,78,000	1,30250
	Average per year.	55,600	26,050

The question of financing the proposed programme next arises. From the statement of receipts given below it is seen that the total receipts of the Assigned Tract are gradually falling:-

Receipts.

Receipts.	Actuals 1923-24.	Actuals 1924-25.	Revised estimate 1925-26.	Budget estimate 1926-27.
Total. (including 1/3rd of income-tax receipts of the Mysore Residency).	18,98,510	18,89,368	17,19,140	17,11,000
Taxes on income.	1,89,886	2,23,548	1,91,922	1,83,000
Excise.	14,77,891	14,47,738	12,95,841	13,05,470
Stamps.	1,61,465	1,56,003	1,84,367	1,62,500
The total expenditure excluding expenditure debitable to the Reserve Fund of 15¾ lakhs and Bangalore share of the surplus for the same years is:-	13,73,104	13,07,274	12,58,630	13,10,000

The two principal sources of income "Excise" and "Taxes on Income" are declining. It is probable that the estimated amount for 1926-27 will not be fully realised. The Collector has already reported that in the recent sale of arrack and toddy shops alone, there was a fall of 84,000/-. It seems, therefore, that to rely on the Assigned Tract Revenues for financing the five year's educational programme may not be safe. In any case it will not be possible to keep expenditure within the datum line of 13 lakhs, unless the normal expenditure is reduced to 11.66 lakhs, as proposed by Mr. Boag; but this seems to be uncertain. It does not appear that the Municipal Commission will undertake any additional expenditure without Government Grants. Already they have asked for Government help to pay off the loans of 11 lakhs they are taking for improvements to water works, which must have precedence & which will absorb savings for some years.

Page 7 (para 2.5) of this Report.

In this connection please see also Mr. Boag's Report page 5 - paragraph 13, Appendix IV, page LVII - paragraph 22.

Flags O, K, L.

In view of paragraph 3 of the Government of India, Foreign and Political Department letter No.702-Est.B., dated the 1st June 1917, it is doubtful whether the Government of India will be prepared to pay from Central Revenues. They have said definitely that Assigned Tract Revenues should bear charges such as those now proposed.

Flag N

As however, the Government of India have asked for the

programme

programme, the proposals may be sent to them and the financial position explained.

A comparative statement is submitted at Flag Z. From the statement it will be seen that the Govt: of India have approved of all the schemes but they have made some reduction in the grants asked for. The following table gives the total cost of the schemes submitted by the Resident

the total cost sanctioned by the Govt: of India and the difference, —

	Proposed by the Resident Rs.	Sanctioned by the Govt: of India Rs.	Difference + More − Less Rs.
(1) Non-recurring cost for 5 years	2,88,000	1,17,500	−1,70,500.
(2) Recurring cost for 2 years	2,02,610	1,35,450	− 67,160
Total.	4,90,610	2,52,950	−2,37,660

Of the sum of Rs. 2,52,950 sanctioned by the Govt: of India the following will be paid as grants-in-aid to the Municipal Commission and Aided Schools: —

	Municipal Commission. Rs.	Aided Schools Rs.	Govt: Training School. Rs.	Total Rs.
(1) Non-recurring cost.	90,500	25,000	22,000	1,17,500
(2) Recurring cost.	92,050	35,000	8,400	1,35,450
Total.	1,62,550	60,000	30,400	2,52,950

Submitted.

83-1926

The Inspector recommends that the following grants provided in the current year's budget may be paid to the Municipal Commission, C. & M. Station, Bangalore':—

	Non-recurring Rs.	Recurring Rs.
(1) The raising of three Municipal primary schools to the middle standard.	2,300	1,232
(2) Opening of twelve new Municipal elementary schools.	10,300	2,000
(3) Opening of five Municipal night schools for adults.	...	150
(4) Appointment of a Lady Superintendent of Girls' Schools on Rs. 45-3-75 per mensem and grant to her of a conveyance allowance of Rs. 15:		720
	12,600	4,102
Total recurring and non-recurring.	16,702	

Under rule 56 of the grant-in-aid Code for Indian Schools in the C. & M. Station, Bangalore it appears that the Hon'ble the Resident can sanction the proposal.

proposal.

As regards the entertainment of additional establishments required for the above Municipal Schools, the sanction of the Commissioner appears to be necessary. If approved the Inspector may be asked to obtain the necessary sanction. His proposals for utilizing the grants placed at the disposal of the President may be approved in general. Two drafts submitted for approval.
